**GREENPRO CAPITAL CORP.**  
**NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE SIX MONTHS ENDED JUNE 30, 2017**  
**(Currency expressed in United States Dollars (“US\$”))**  
**(Unaudited)**

**NOTE 1 – ORGANIZATION AND BUSINESS BACKGROUND**

Greenpro Capital Corp. (the “Company” or “GRNQ”) was incorporated on July 19, 2013 in the state of Nevada. On May 6, 2015, the Company changed its name to Greenpro Capital Corp. from Greenpro, Inc. The Company currently operates and provides a wide range of business solution services to small and medium-size businesses located in Asia, with an initial focus on Hong Kong, China and Malaysia. Our comprehensive range of services includes cross-border business solutions, record management services, and accounting outsourcing services. Our cross border business services include, among other services, tax planning, trust and wealth management, cross border listing advisory services and transaction services.

In addition to our business solution services, we also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. One of our venture capital business segments is focused on establishing a business incubator for start-up and high growth companies to support them during their critical growth periods and investing in select start-up and high growth companies. Our venture capital business is focused on companies located in Asia and Southeast Asia including Hong Kong, Malaysia, China, Thailand, and Singapore. One of our venture capital business segments is focused on rental activities of commercial properties and the sale of investment properties.

On July 29, 2015, the Company entered into a Sale and Purchase Agreement (the “Agreement”) with Greenpro Resources Limited (“GRBV”), a company incorporated in the British Virgin Islands, and the stockholders of GRBV to purchase 100% of the issued and outstanding shares and the assets of GRBV. Pursuant to the Agreement, GRNQ agreed to issue 9,070,000 shares of its restricted common stock at \$0.35 per share to the stockholders of GRBV and pay \$25,500 in cash, representing an aggregate purchase consideration of \$3,200,000. Mr. Lee Chong Kuang and Mr. Loke Che Chan, Gilbert, the directors of the Company, are the stockholders and directors of GRBV each with 50% of the shareholdings.

On July 31, 2015, the Company further entered into various Sale and Purchase Agreements to purchase the following companies:

- (i) 100% of the issued and outstanding shares and the assets of A&G International Limited (“A&G”), a company incorporated in Belize. GRNQ agreed to issue 1,842,000 shares of its restricted common stock at \$0.52 per share to the stockholder of A&G, representing an aggregate purchase consideration of \$957,840. Ms. Yap Pei Ling, the sole stockholder and director of A&G, is the spouse of the director of the Company.
- (ii) 100% of the issued and outstanding shares and the assets of Falcon Secretaries Limited, Ace Corporate Services Limited, and Shenzhen Falcon Financial Consulting Limited (collectively refer as “F&A”). GRNQ agreed to issue 2,080,200 shares of its restricted common stock at \$0.52 per share to the stockholder of F&A, representing an aggregate purchase consideration of \$1,081,740. Ms. Chen Yan Hong, an independent third party, is the sole stockholder of F&A.
- (iii) 60% of the issued and outstanding shares and the assets of Yabez (Hong Kong) Company Limited (“Yabez”), a company incorporated in Hong Kong. GRNQ agreed to issue 486,171 shares of its restricted common stock at \$0.52 per share to the stockholders of Yabez, representing an aggregate purchase consideration of \$252,808. Mr. Cheng Chi Ho and Ms. Wong Kit Yi, both are independent third parties, are the stockholders of Yabez with 51% and 49% of the shareholdings, respectively.

On September 30, 2015, the Company further entered into a Sale and Purchase Agreement to purchase the following company:

- (iv) 100% of the issued and outstanding shares and the assets of Greenpro Venture Capital Limited (“GPVC”), a company incorporated in Anguilla. GRNQ agreed to issue 13,260,000 shares of its restricted common stock at \$0.60 per share to the stockholders of GPVC and pay \$6,000 in cash, representing an aggregate purchase consideration of \$7,962,000. Mr. Lee Chong Kuang and Mr. Loke Che Chan, Gilbert, the directors of the Company, are the stockholders and directors of GPVC, each with 50% of the shareholdings.

These share exchange transactions between GRNQ and GRBV, A&G, and GPVC resulted in the owners of these companies obtaining over 89% voting interest in GRNQ at that time. The merger of GRBV, A&G, and GPVC into GRNQ, which has nominal net assets, is considered to be acquisition transactions under common control. For accounting purposes, GRNQ presents unaudited condensed interim consolidated financial statements as of the beginning of the period as though the share exchanges had occurred at the beginning of the period. Financial statements of all prior periods are retrospectively adjusted to furnish comparative information. No goodwill was recognized for these acquisition transactions under common control.

The acquisition of F&A and Yabez is considered as a business combination using the acquisition method of accounting under ASC 805 “*Business Combinations*”, which requires all the assets acquired and liabilities assumed, including amounts attributable to non-controlling interest, be recorded at their respective fair values at the date of acquisition. Any excess of purchase price over the fair value of the assets acquired and liabilities assumed is allocated to goodwill.

On October 1, 2015, QSC Asia Sdn. Bhd., an unaffiliated third party, acquired 49% of Greenpro Capital Village Sdn. Bhd. (Formerly known as Greenpro Global Advisory Sdn. Bhd.) in consideration of \$11,000 (MYR 49,000) from Greenpro Financial Consulting Limited. Concurrently with such sale, Greenpro Financial Consulting Limited transferred 51% of Greenpro Capital Village Sdn. Bhd. to Greenpro Holding Limited, our subsidiary. This subsidiary became the new business arm which provides educational and support services.

On May 11, 2016, Greenpro Capital Pty Ltd was formed with 50% held by Greenpro Holding Limited (“GPHL”), one of our subsidiaries, and 50% was held by Mohammad Reza Masoumi Al Agha.

On May 23, 2016, our subsidiary, Greenpro Holding Limited (“GPHL”), acquired 400 shares of Greenpro Wealthon Sdn. Bhd. from Mr. Lee Chong Kuang with MYR 1 (approximately US\$0.25). On June 7, 2016, GPHL acquired an additional 200 shares of Greenpro Wealthon Sdn. Bhd. for MYR120,000 (approximately US\$30,000), resulting in GPHL owing 60% of Greenpro Wealthon Sdn. Bhd. The remaining 40% of Greenpro Wealthon Sdn. Bhd. is held by Mr. Yiap Soon Keong.

On April 25, 2017, the Company entered into a Sale and Purchase Agreement with Billion Sino Holdings Limited (“BSHL”), a company incorporated in the Seychelles, and the stockholders of BSHL, to purchase 60% of the issued and outstanding shares and the assets of BSHL. Pursuant to this agreement, GRNQ agreed to issue 340,645 shares of its restricted common stock at \$3.50 per share to the stockholders of BSHL.

On April 27, 2017, Greenpro Resources Limited, the wholly owned subsidiary of GRNQ, and Gushen Credit Limited, a Hong Kong corporation (“GCL”), entered into an Asset Purchase Agreement, pursuant to which GRNQ purchased the assets in Gushen Credit Limited. As consideration thereto, GRNQ agreed to pay the purchase price of \$105,000.

GCL operates a money lending business in Hong Kong, located at 1701-03, 17/F, Metropolis Tower, 10 Metropolis Drive, Hung Hom, Kowloon, Hong Kong. On April 28, 2017, GSHL sold two (2) ordinary shares of GCL to GRNQ, representing 100% ownership, for a total consideration of \$0.26 in cash. The purchase price is determined based on the mutual agreement between Gushen Holding Limited and GRNQ. GCL was renamed to Greenpro Credit Limited on May 16, 2017.

Greenpro Synergy Network Ltd (“GSN”) was incorporated in Hong Kong on March 2, 2016, as a variable interest entity (“VIE”) that is subject to consolidation with the Company. GSN’s principal activities are to hold certain of our universal life insurance policies. Loke Che Chan, Gilbert, our Chief Financial Officer, Secretary, Treasurer and director and Lee Chong Kuang, our Chief Executive Officer, President and director are the shareholders of GSN. We control GSN through a series of contractual arrangements (the “VIE Agreements”) between GPHL and GSN. The VIE agreements include (i) an Exclusive Business Cooperation Agreement, (ii) a Loan Agreement, (iii) a Share Pledge Agreement, (iv) a Power of Attorney and (v) an Exclusive Option Agreement with the shareholders of GSN.

The accompanying unaudited condensed interim consolidated financial statements reflect the application of certain significant accounting policies as described in this note and elsewhere in the accompanying unaudited condensed interim consolidated financial statements and notes.

- **Basis of presentation**

The accompanying unaudited condensed interim consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America (“US GAAP”). These unaudited interim consolidated financial statements are condensed and should be read in conjunction with the audited consolidated financial statements of the Company and subsidiaries as of and for the year ended December 31, 2016. These unaudited interim statements include all normal recurring adjustments that are, in the opinion of management, necessary for a fair presentation of the results for the periods presented. The results for the six month period may not be indicative of a full year’s result.

- **Basis of consolidation**

The unaudited condensed interim consolidated financial statements include the accounts of the Company and include the assets, liabilities, revenues and expenses of all majority-owned subsidiaries over which the Company exercises control and, when applicable, entities for which the Company has a controlling financial interest or is the primary beneficiary. All inter-company accounts and transactions have been eliminated in consolidation. The Company records income attributable to non-controlling interest in the consolidated statements of operations for any non-owned portion of consolidated subsidiaries. Non-controlling interest is recorded within the equity section but separate from GRNQ’s equity in the consolidated balance sheets.

- **Use of estimates**

In preparing these unaudited condensed interim consolidated financial statements, management makes estimates and assumptions that affect the reported amounts of assets and liabilities in the balance sheets and revenues and expenses during the periods reported. Actual results may differ from these estimates. The following are some of the areas requiring significant judgments and estimates: determinations of the useful lives of assets, estimates of allowances for doubtful accounts, cash flow and valuation assumptions in performing asset impairment tests of long-lived assets.

- **Cash and cash equivalents**

Cash and cash equivalents are carried at cost and represent cash on hand, demand deposits placed with banks or other financial institutions and all highly liquid investments with an original maturity of three months or less as of the purchase date of such investments.

- **Accounts receivable**

Accounts receivable are recorded at the invoiced amount less an allowance for any uncollectible accounts and do not bear interest, which are due on demand. Management reviews the adequacy of the allowance for doubtful accounts on an ongoing basis, using historical collection trends and aging of receivables. Management also periodically evaluates individual customer’s financial condition, credit history, and the current economic conditions to make adjustments in the allowance when it is considered necessary. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote.

The allowance for any uncollectible accounts for six months ended June 30, 2017 was zero.

- **Inventory – finished property**

Inventory – finished property represents a multi-unit property developed for resale on a unit by unit basis. Inventory is stated at cost unless the inventory is determined to be impaired in which case the impaired inventory is written down to fair value. The cost of inventory – finished property includes the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Project wide costs such as land acquisition and certain development costs are allocated to the specific units based upon their relative fair value before construction. All property is finished and ready for sale.

In conducting its reviews for indicators of impairment, the Company evaluates, among other things, the margins on units already sold within the project, margins on units under contract but not closed (none as of June 30, 2017), and projected margin on future unit sales. The Company pays particular attention to discern if inventory is moving at a slower than expected pace or where margins are trending downward. As at June 30, 2017, the Company determined inventory – finished property was not impaired.

- Investment Property

Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

| Categories                   | Expected useful life                                 | Residual value |
|------------------------------|------------------------------------------------------|----------------|
| Leasehold land and buildings | 50 years                                             | -              |
| Furniture and fixtures       | 3 - 10 years                                         | 5%             |
| Office equipment             | 3 - 10 years                                         | 5% - 10%       |
|                              | Over the shorter of estimated useful life or term of |                |
| Leasehold improvement        | lease                                                | -              |

The cost of leasehold land and buildings includes the purchase price of property, legal fees, and other acquisition costs.

Depreciation expense, classified as cost of rental, for the six months ended June 30, 2017 and 2016 were \$14,751 and \$15,924, respectively.

- Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

| Categories             | Expected useful life                                 | Residual value |
|------------------------|------------------------------------------------------|----------------|
| Furniture and fixtures | 3 - 10 years                                         | 5%             |
| Office equipment       | 3 - 10 years                                         | 5% - 10%       |
|                        | Over the shorter of estimated useful life or term of |                |
| Leasehold improvement  | lease                                                | -              |

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the statement of operations.

Depreciation expense, classified as operating expenses, for the six months ended June 30, 2017 and 2016 were \$7,811 and \$7,767, respectively.

- Intangible assets

Intangible assets are stated at cost less accumulated amortization. Intangible assets represented the registration costs of trade marks registered in Hong Kong, the PRC, and Malaysia, which are amortized on a straight-line basis over a useful life of ten years. Intangible assets acquired in business combinations are considered customer lists and order backlogs amortized on a straight-line basis over a useful life of five years and six years, respectively.

The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets' carrying amounts. There were no impairment losses recorded on intangible assets for the six months ended June 30, 2017 and 2016.

Amortization expense for the six months ended June 30, 2017 and 2016 were \$65,332 and \$59,155 respectively.

- Goodwill

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the provision of ASC 350 “*Goodwill and Other*”, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit's net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company's policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

- Impairment of long-lived assets

Long-lived assets primarily include property, plant and equipment and intangible assets. In accordance with the provision of ASC Topic 360-10-5, “*Impairment or Disposal of Long-Lived Assets*”, the Company generally conducts its annual impairment evaluation to its long-lived assets, usually in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There has been no impairment charge for the periods presented.

- Cash value of life insurance

The cash value of life insurance relates to the Company-owned life insurance policies on the general manager and executive corporate advisor of the Company, which is stated at the cash surrender value of the contract.

- Investments in unconsolidated entities

Under the equity method of accounting, investments in unconsolidated entities are initially recognized in the consolidated balance sheet at cost and are subsequently adjusted to reflect the Company’s proportionate share of net earnings or losses of the entity, distributions received, contributions and certain other adjustments, as appropriate. The Company’s share of the income or loss of the unconsolidated entity is reflected in the consolidated statements of operations and will increase or decrease, as applicable, the carrying value of the Company’s investments in unconsolidated entities on the consolidated balance sheet.

When the investment cost in an unconsolidated entity is reduced to zero, the Company records no further losses in its consolidated statements of operations unless the Company has an outstanding guarantee obligation or has committed additional funding to the entity. When such entity subsequently reports income, the Company will not record its share of such income until it exceeds the amount of the Company’s share of losses not previously recognized.

- Comprehensive income

Comprehensive income is defined as the change in equity of a business enterprise during a period from transactions and other events and circumstances from non-owner sources. The Company’s accumulated other comprehensive income consists of cumulative foreign currency translation adjustments.

- Revenue recognition

The Company recognizes its revenue in accordance with ASC Topic 605, “*Revenue Recognition*”, upon the delivery of its products when: (1) delivery has occurred or services rendered; (2) persuasive evidence of an arrangement exists; (3) there are no continuing obligations to the customer; and (4) the collection of related accounts receivable is probable.

(a) Rental income

Revenue from rental of leasehold land and buildings are recognized on a straight-line basis over the lease term when collectability is reasonably assured and the tenant has taken possession or controls the physical use of the leased assets.

The Company leases its commercial office premises in Malaysia and Hong Kong under various non-cancelable operating leases with terms of two to three years and renewal options. For the six months ended June 30, 2017, the Company has recorded \$85,818 in rental revenue, based upon its annual rental over the life of the lease under operating lease, using straight-line method.

(b) Service income

Revenue from the provision of (i) business consulting and advisory services and (ii) company secretarial, accounting and financial review services are recognized when there is (i) an existence of contract or an arrangement (ii) services are rendered, (iii) the service price is fixed or determinable, and (iv) collectability is reasonable assured.

(c) Sale of properties

Revenue from the sale of properties is recognized at the time each unit is delivered and title and possession are transferred to the buyer. Specifically, the Company utilizes the full accrual method where recognition occurs when (i) the collectability of the sales price is reasonably assured, (ii) the seller is not obligated to perform significant activities after the sale, (iii) the initial investment from the buyer is sufficient, and (iv) the Company recognizes revenue when it satisfies a performance obligation by transferring control of a promised property to a customer.

Revenue on sales of properties may be deferred in whole or in part until the requirements for revenue recognition have been met.

- Cost of revenues

Cost of revenue on rental shown on the accompanying statements of operations include costs associated with government rent and rates, repairs and maintenance, property insurance, depreciation and other related administrative costs. Property management fee and utility expenses are paid directly by tenants.

Costs of revenue on provision of services primarily consist of employee compensation and related payroll benefits, company formation cost and other professional fees directly attributable to cost in related to the services rendered.

Cost of revenues on sale of properties primary consist of the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Selling and advertising costs are expensed as incurred.

- Non-controlling interest

Non-controlling interest represents the capital contribution, income and loss attributable to the shareholders of less than wholly-owned and consolidated entities.

- Income taxes

Income taxes are determined in accordance with the provisions of ASC Topic 740, “*Income Taxes*” (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

The Company conducts major businesses in Hong Kong, Malaysia and China and is subject to tax in its own jurisdiction. As a result of its business activities, the Company will file separate tax returns that are subject to examination by the foreign tax authorities.

- Foreign currencies translation

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transaction. Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency using the applicable exchange rates at the balance sheet dates. The resulting exchange differences are recorded in the statement of operations.

The reporting currency of the Company is the United States Dollars (“US\$”) and the accompanying financial statements have been expressed in US\$. In addition, the Company’s operating subsidiaries maintain their books and records in their respective local currency, Malaysian Ringgit (“MYR”), Renminbi (“RMB”), and Hong Kong Dollars (“HK\$”), which is also the respective functional currencies for each subsidiary as they are the primary currency of the economic environment in which each subsidiary operates.

In general, for consolidation purposes, assets and liabilities of its subsidiaries whose functional currency is not the US\$ are translated into US\$, in accordance with ASC Topic 830-30, “*Translation of Financial Statement*”, using the exchange rate on the balance sheet date. Revenues and expenses are translated at average rates prevailing during the period. The gains and losses resulting from translation of financial statements of a foreign subsidiary are recorded as a separate component of accumulated other comprehensive income within the statement of stockholders’ equity.

Translation of amounts from the local currencies of the Company into US\$ has been made at the following exchange rates for the respective periods:

- Related parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

- Segment reporting

ASC Topic 280, “*Segment Reporting*” establishes standards for reporting information about operating segments on a basis consistent with the Company’s internal organization structure as well as information about services categories, business segments and major customers in financial statements. The Company operates in three reportable operating segments, being service business, real estate business and corporate business.

- Business Combination

ASC 805, Business Combinations (“ASC 805”), applies the acquisition method of accounting for business combinations to all acquisitions where the acquirer gains a controlling interest, regardless of whether consideration was exchanged. ASC 805 establishes principles and requirements for how the acquirer: a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree; b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. Accounting for acquisitions requires the Company to recognize, separately from goodwill, the assets acquired and the liabilities assumed at their acquisition-date fair values. Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition-date fair values of the assets acquired and the liabilities assumed. While the Company uses its best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date, the estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, the Company may record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to the consolidated statements of operations.

- Fair value of financial instruments

The carrying value of the Company’s financial instruments: cash and cash equivalents, accounts receivable, deposits, prepayments and other receivables, accounts payable, receipts in advance, bank loan (current and long term), loan from shareholders, amounts due to directors, amount due to related companies, amount due to non-controlling interest party, and other payables and accrued liabilities approximate at their fair values because of the short-term nature of these financial instruments.

The Company follows the guidance of the ASC Topic 820-10, “*Fair Value Measurements and Disclosures*” (“ASC 820-10”), with respect to financial assets and liabilities that are measured at fair value. ASC 820-10 establishes a three-tier fair value hierarchy that prioritizes the inputs used in measuring fair value as follows:

- *Level 1* : Observable inputs such as quoted prices in active markets;
- *Level 2* : Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- *Level 3* : Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions
- Recent accounting pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, “Revenue from Contracts with Customers” (“ASU 2014-09”). ASU 2014-09 supersedes the revenue recognition requirements in “Revenue Recognition (Topic 605)”, and requires entities to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is not permitted. In August 2015, the FASB issued an Accounting Standards Update to defer by one year the effective dates of its new revenue recognition standard until annual reporting periods beginning after December 15, 2017 (2018 for calendar-year public entities) and interim periods therein. Management is currently assessing the impact the adoption of ASU 2014-09 and has not determined the effect of the standard on our ongoing financial reporting.

In August 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements – Going Concern: Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern* (“ASU 2014-15”). ASU 2014-15 requires management to evaluate whether there is substantial doubt about the entity’s ability to continue as a going concern and, if so, provide certain footnote disclosures. ASU 2014-15 is effective for annual periods ending after December 15, 2016, including interim reporting periods thereafter. We adopted ASU 2014-15 as of December 31, 2016, but it did not impact our consolidated financial statements.

In January 2017, the FASB issued Accounting Standards Update No. 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business* (ASU 2017-01), which revises the definition of a business and provides new guidance in evaluating when a set of transferred assets and activities is a business. This guidance will be effective for us in the first quarter of 2018 on a prospective basis, and early adoption is permitted. We do not expect the standard to have a material impact on our consolidated financial statements.

In January 2017, the FASB issued Accounting Standards Update No. 2017-04, *Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment* (ASU 2017-04), which eliminates step two from the goodwill impairment test. Under ASU 2017-04, an entity should recognize an impairment charge for the amount by which the carrying amount of a reporting unit exceeds its fair value up to the amount of goodwill allocated to that reporting unit. This guidance will be effective for us in the first quarter of 2020 on a prospective basis, and early adoption is permitted. We do not expect the standard to have a material impact on our consolidated financial statements.

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on its financial condition or the results of its operations.

**NOTE 8 - CASH SURRENDER VALUE OF LIFE INSURANCE**

On September 9, 2013, the Company purchased insurance on the life of the General Manager of the Company. As beneficiary, the Company receives the cash surrender value if the policy is terminated and, upon death of the insured, receives all benefits payable. Net cash surrender value of this life insurance is presented in the accompanying financial statement, net of surrender charge.

On May 15, 2015, the Company purchased additional insurance on the life of an executive Corporate Advisor of the Company. As beneficiary, the Company receives the cash surrender value if the policy is terminated and, upon death of the insured, receives all benefits payable. The cash surrender value of this life insurance is pledged as collateral against HK\$902,663 (approximately \$116,473) credit facility with Hang Seng Bank Limited. Cash value of this life insurance is presented in the accompanying financial statement, net of the policy loan. The loan carries interest at an effective rate of 1.75% per annum over 1 month Hong Kong Interbank Offered Rate (“HIBOR”), payable with one lump sum on maturity in May 2016, which is secured by the cash value of the life insurance policy and personally guaranteed by Mr. Lee Chong Kuang and Mr. Loke Che Chan, the directors of the Company. The loan was renewed on May 27, 2016 and July 17, 2017. The loan carries interest at 1.75% per annum over 1 month HIBOR or the Bank’s Cost of Funds, whichever is higher, payable at the end of each interest period. Final maturity date of the loan is 12 months from the date of drawdown.

A summary of the net cash surrender value of life insurance as of June 30, 2017 is reported below:

Management believes that it is more likely than not that the deferred tax assets will not be fully realizable in the future. Accordingly, the Company provided for a full valuation allowance against its deferred tax assets of \$621,464 as of June 30, 2017. During the period ended June 30, 2017, the valuation allowance increased by \$102,710, primarily relating to net operating loss carryforwards from the various tax regime.

(c) Credit risk

Financial instruments that are potentially subject to credit risk consist principally of accounts receivable. The Company believes the concentration of credit risk in its trade receivables is substantially mitigated by its ongoing credit evaluation process and relatively short collection terms. The Company does not generally require collateral from customers. The Company evaluates the need for an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends and other information.

(d) Interest rate risk

As the Company has no significant interest-bearing assets, the Company’s income and operating cash flows are substantially independent of changes in market interest rates. The Company’s interest-rate risk arises from bank loans. The Company manages interest rate risk by varying the issuance and maturity dates variable rate debt, limiting the amount of variable rate debt, and continually monitoring the effects of market changes in interest rates.

(e) Exchange rate risk

The reporting currency of the Company is US\$, to date the majority of the revenues and costs are denominated in MYR and RMB and a significant portion of the assets and liabilities are denominated in MYR and RMB. As a result, the Company is exposed to foreign exchange risk as its revenues and results of operations may be affected by fluctuations in the exchange rate between US\$, MYR and RMB. If MYR and RMB depreciates against US\$, the value of MYR and RMB revenues and assets as expressed in US\$ financial statements will decline. The Company does not hold any derivative or other financial instruments that expose it to substantial market risk.

(f) Economic and political risks

Substantially all of the Company’s services are conducted in Malaysia, the PRC and Asian region. The Company’s operations are subject to various political, economic, and other risks and uncertainties inherent in Malaysia. Among other risks, the Company’s operations are subject to the risks of restrictions on transfer of funds; export duties, quotas, and embargoes; domestic and international customs and tariffs; changing taxation policies; foreign exchange restrictions; and political conditions and governmental regulations in Malaysia.

The Company’s operations in the PRC are subject to special considerations and significant risks not typically associated with companies in North America and Western Europe. These include risks associated with, among others, the political, economic and legal environment and foreign currency exchange. The Company’s results may be adversely affected by changes in the political and social conditions in the PRC, and by changes in governmental policies with respect to laws and regulations, anti-inflationary measures, currency conversion, remittances abroad, and rates and methods of taxation.

### **Company Overview**

Greenpro Capital Corp. (the "Company" or "Greenpro"), was incorporated in the State of Nevada on July 19, 2013 with a fiscal year end of December 31. Our business and registered office is located at Room 1701-1703, 17/F The Metropolis Tower, 10 Metropolis Drive, Hung Hom, Kowloon, Hong Kong. We provide cross-border business solutions and accounting outsourcing services to small and mid-size businesses located in Asia, with an initial focus on Hong Kong, Malaysia and China.

Greenpro provides a range of services as a package solution (the "Package Solution") to our clients that we believe can help our clients reduce their business costs and improve their revenues.

In addition to our business solution services, we also operate a venture capital business through Greenpro Venture Capital Limited, an Anguilla corporation. One of our venture capital business segments is focused on (1) establishing a business incubator for start-up and high growth companies to support such companies during critical growth periods, which will include education and support services, and (2) searching for investment opportunities in selected start-up and high growth companies, which may generate significant returns to the Company. Our venture capital business is focused on companies located in Asia and Southeast Asia including Hong Kong, Malaysia, China, Thailand, and Singapore. Another one of our venture capital business segments is focused on rental activities of commercial properties and the sale of investment properties.

As of January 15, 2015, our common stock has been quoted and traded in the over-the-counter market. As of April 6, 2015, Greenpro is verified for trading on the OTCQB® Venture Marketplace.

On May 6, 2015, Greenpro, with approval of a majority of the Company's shareholders, changed its name from Greenpro, Inc. to Greenpro Capital Corp. The board of directors believed that the name change facilitates the Company's efforts to re-brand itself to develop and enhance its business.

Effective July 21, 2015, the board of directors of Greenpro approved a change in the Company's fiscal year end from October 31 to December 31. The change was intended to improve comparability with industry peers.

On July 29, 2015, Greenpro acquired its related company, Greenpro Resources Limited, which provides business consulting and advisory services and generates income through the subsidiaries of Greenpro Resources Limited. Greenpro Resources Sdn. Bhd, a wholly owned subsidiary of Greenpro Resources Limited, holds real estate in Malaysia as investment properties and generates rental income from such investments.

On July 31, 2015, Greenpro acquired 100% of the shares of A&G International Limited, Falcon Secretaries Limited, Ace Corporate Services Limited and Shenzhen Falcon Financial Consulting Limited, and 60% of the shares of Yabez (Hong Kong) Company Limited. The acquisition of these companies broadened the range of our services, including, but not limited to, company formation advisory services and company secretarial services.

On September 30, 2015, Greenpro acquired its related company, Greenpro Venture Capital Limited, which is an investment holding company and generates income through the subsidiaries of Greenpro Venture Capital Limited. Forward Win International Limited and Chief Billion Limited, the subsidiaries of Greenpro Venture Capital Limited, are engaged in investing and trading real estate in Hong Kong.

On October 1, 2015, Greenpro Financial Consulting Limited transferred 51% and 49% shares of Greenpro Capital Village Sdn. Bhd. (Formerly known as Greenpro Global Advisory Sdn. Bhd.) to Greenpro Holding Limited and QSC Asia Sdn Bhd respectively. This subsidiary became the new business arm which provides educational and support services.

On October 18, 2015, our Board of Directors (the “Board”) appointed Mr. Thanawat Lertwattanarak and Ms. Srirat Chuchottaworn to the Board. We believed that the presence of these new directors would help to develop our business in the Thailand market.

On December 30, 2015, A&G International Limited transferred 100% of its shares of Asia UBS Global Limited, a Belize Corporation, and Asia UBS Global Limited, a Hong Kong limited company, to Greenpro Resources Limited due to an internal restructuring. A&G International Limited, a holding company, was transferred to Ms Yap Pei Ling on the same date for consideration of US\$1.

On March 14, 2016, the Board appointed Mr. Shum Albert, Mr. Chin Kiew Kwong and Mr. Hee Chee Keong to the Board as the independent directors of the Company. On March 23, 2016, our Audit Committee was established and is comprised of three independent directors.

On December 7, 2016, the Board appointed Mr. How Kok Choong to the Board as independent director of the Company. On March 17, 2017, our Compensation Committee, and Corporate Governance and Nominating Committee were established and are comprised of two independent directors.

On April 25, 2017, Greenpro acquired 60% of the shares of Billion Sino Holdings Limited. The acquisition of the company broadened the range of our services to include an insurance intermediary business such as long term insurance and general insurance in Hong Kong.

On April 27, 2017, Greenpro Resources Limited, the wholly owned subsidiary of the Company, purchased the assets of Gushen Credit Limited with consideration of \$105,000. The assets include a deposit in connection with a tenancy agreement, electricity bills, water bills and telephone bills, but excluding all cash and cash equivalents of GCL.

### **Liquidity and Capital Resources**

As of June 30, 2017, we had working capital of \$4,430,464 as compared to working capital of \$3,541,077 as of December 31, 2016. The increase was due to an increase in cash and cash equivalents, accounts receivable and prepayments and other receivables. We had total current assets of \$6,391,237 consisting of cash on hand of \$1,302,627 and Inventory – finished property of \$3,747,732 compared to total current assets of \$5,323,480 as of December 31, 2016. The increase was due to the increase in accounts receivable from a client upon completion of a project, and prepayments and other receivables contributed by the rental deposit from acquisition of Greenpro Credit and a deposit of Shenzhen property. We had current liabilities of \$1,960,773 consisting of amounts due to related parties of \$1,443,040, and accounts payable and accrued liabilities of \$257,609. The Company’s net income was \$125,904 for the six months ended June 30, 2017 and the Company’s net loss was \$242,653 for the six months ended June 30, 2016. The Company’s comprehensive income was \$117,298 for the six months ended June 30, 2017 and the Company’s comprehensive loss was \$209,970 for the six months ended June 30, 2016. The increase in net income and comprehensive income were due to a significant increase in revenue from the service income as a result of the acquisitions in previous years.

As of June 30, 2017, a related party advanced \$1,441,548 to the Company for purchasing the inventory – finished property. This loan carries no interest and is convertible into shares of our common stock in the future at the discretion of the holder.

As of June 30, 2017, our long-term liabilities consist of bank loans from Standard Chartered Saadiq Berhad, with 300 monthly installments of MYR9,287 (approximately \$2,840) each and will mature in May 2038, and from United Overseas Bank (Malaysia) Berhad, with 360 monthly installments of MYR5,382 (approximately \$1,645) each and will mature in August 2043. The maturities of the long-term bank loans for each of the five years and thereafter following June 30, 2017 are as follows:

Year ending June 30:

|            |    |                |
|------------|----|----------------|
| 2018       | \$ | 15,057         |
| 2019       |    | 15,710         |
| 2020       |    | 16,537         |
| 2021       |    | 17,331         |
| 2022       |    | 18,164         |
| Thereafter |    | 487,938        |
| Total      | \$ | <u>570,737</u> |

Due to the long maturity and relatively small amount for the current portion of bank loans, we believe our position does not cause substantial doubt over going concern.

#### Operating activities

Net cash used in operating activities was \$851,436 for the six months ended June 30, 2017 as compared to net cash used in operating activities of \$483,975 for the six months ended June 30, 2016. More operating cash was used in 2017 because of the increase in accounts receivable, prepayments and other receivables.

The cash used in operating activities in 2017 was mainly from an increase in accounts receivable, an increase in prepayments and other receivables, and a decrease in other payable and accrued liabilities, while the cash used in operating activities in 2016 consisted primarily of a net loss for the period, a decrease in other payable and accrued liabilities, and a decrease in deferred revenue. Non-cash expenses totaled \$85,690 and \$62,315 for the six months ended June 30, 2017 and 2016, respectively, which were primarily composed of depreciation and amortization of \$87,894, and an increase in the cash surrender value on life insurance of \$2,204 for the six months ended June 30, 2017.

The Company has incurred operating losses and used cash in its operating activities for the past two years. In fiscal 2016, the Company suffered an increase in accounts receivable and decrease in other payable and accrued liabilities and deferred revenue, which resulted in negative operating cash flow. The increase in accounts receivable was due to pending receipt of service income. The Company's management believes it will have an improvement in accounts receivable turnover and accounts payable turnover ratios in fiscal 2017. As such, management believes that the Company will provide sufficient cash flows to fund its operations in the ordinary course of business through at least the next twelve months. However, there can be no assurance that the anticipated sales level will be achieved.

#### Investing activities

Net cash used in investing activities were \$96,340 and \$ 11,773 for the six months ended June 30, 2017 and 2016, respectively.

The cash used in investing activities were mainly for the long-term investment and purchase of property, plant and equipment, offset by the cash proceeds from acquisition of subsidiaries in 2017. The Company invested in three unconsolidated entities, namely Agape ATP Corporation, Dongjia, Inc. and Aquarius protection fund SPC, with initial investment amounts of \$1,750, \$1,500 and \$200,000, respectively. Net Cash used in investing activities consisted primarily of purchases of property, plant and equipment in 2016 .

#### Financing activities

Net cash provided by financing activities were \$1,113,846 and \$232,799 for the six months ended June 30, 2017 and 2016, respectively. The cash provided by financing activities mainly resulted from the proceeds from share issuances of \$984,864 in 2017.

Below is the tabular summary of the financing activities of the Company since inception:

Our related parties are those companies where Greenpro Venture Capital Limited owns a certain percentage of the shares of such companies. One related party is under common control of Mr. Loke Che Chan, Gilbert, a director of the Company. All of these related party transactions are generally transacted at an arms-length basis at the current market value in the normal course of business.

### **Critical Accounting Policies and Estimates**

Our unaudited condensed interim consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States, or US GAAP. The preparation of these unaudited condensed interim consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, costs and expenses and related disclosures. We base our estimates on historical experience, as appropriate, and on various other assumptions that we believe to be reasonable under the circumstances. Changes in the accounting estimates are reasonably likely to occur from period to period. Accordingly, actual results could differ significantly from the estimates made by our management. We evaluate our estimates and assumptions on an ongoing basis. To the extent that there are material differences between these estimates and actual results, our future financial statement presentation, financial condition, results of operations and cash flows will be affected. We believe that the following critical accounting policies involve a greater degree of judgment and complexity than our other accounting policies. Accordingly, these are the policies we believe are the most critical to understanding and evaluating our unaudited condensed interim consolidated financial condition and results of operations.

- Inventory – finished property

Inventory – finished property represents a multi-unit property developed for resale on a unit by unit basis. Inventory is stated at cost unless the inventory is determined to be impaired in which case the impaired inventory is written down to fair value. The cost of inventory – finished property includes the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Project wide costs such as land acquisition and certain development costs are allocated to the specific units based upon their relative fair value before construction. All property is finished and ready for sale.

In conducting its reviews for indicators of impairment, the Company evaluates, among other things, the margins on units already sold within the project, margins on units under contract but not closed (none as of June 30, 2017), and projected margin on future unit sales. The Company pays particular attention to discern if inventory is moving at a slower than expected pace or where margins are trending downward.

- Investment Property

Investment Property is stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

| Categories                   | Expected useful life                                       | Residual value |
|------------------------------|------------------------------------------------------------|----------------|
| Leasehold land and buildings | 50 years                                                   | -              |
| Furniture and fixtures       | 3 - 10 years                                               | 5%             |
| Office equipment             | 3 - 10 years                                               | 5% - 10%       |
| Leasehold improvement        | Over the shorter of estimated useful life or term of lease | -              |

The cost of leasehold land and buildings includes the purchase price of property, legal fees, and other acquisition costs.

- Plant and equipment

Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Depreciation is calculated on the straight-line basis over the following expected useful lives from the date on which they become fully operational and after taking into account their estimated residual values:

| Categories             | Expected useful life                                       | Residual value |
|------------------------|------------------------------------------------------------|----------------|
| Furniture and fixtures | 3 - 10 years                                               | 5%             |
| Office equipment       | 3 - 10 years                                               | 5% - 10%       |
| Leasehold improvement  | Over the shorter of estimated useful life or term of lease | -              |

Expenditures for maintenance and repairs are expensed as incurred. The gain or loss on the disposal of plant and equipment is the difference between the net sales proceeds and the carrying amount of the relevant assets and is recognized in the statement of operations.

- Intangible assets

Intangible assets are stated at cost less accumulated amortization. Intangible assets represented the registration costs of trade marks registered in Hong Kong, the PRC, and Malaysia, which are amortized on a straight-line basis over a useful life of ten years. Intangible assets acquired in business combinations are considered customer lists and order backlogs amortized on a straight-line basis over a useful life of five years and six years, respectively.

The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets' carrying amounts. There were no impairment losses recorded on intangible assets for the six months ended June 30, 2017 and 2016.

- Goodwill

Goodwill is the excess of cost of an acquired entity over the fair value of amounts assigned to assets acquired and liabilities assumed in a business combination. With the provision of ASC 350 “*Goodwill and Other*”, goodwill is not amortized, rather it is tested for impairment annually, and will be tested for impairment between annual tests if an event occurs or circumstances change that would indicate the carrying amount may be impaired. An impairment loss generally would be recognized when the carrying amount of the reporting unit’s net assets exceeds the estimated fair value of the reporting unit and would be measured as the excess carrying value of goodwill over the derived fair value of goodwill. The Company’s policy is to perform its annual impairment testing for its reporting units on December 31, of each fiscal year.

- Impairment of long-lived assets

Long-lived assets primarily include property, plant and equipment and intangible assets. In accordance with the provision of ASC Topic 360-10-5, “*Impairment or Disposal of Long-Lived Assets*”, the Company generally conducts its annual impairment evaluation to its long-lived assets, usually in the fourth quarter of each year, or more frequently if indicators of impairment exist, such as a significant sustained change in the business climate. The recoverability of long-lived assets is measured at the reporting unit level. If the total of the expected undiscounted future net cash flows is less than the carrying amount of the asset, a loss is recognized for the difference between the fair value and carrying amount of the asset. There has been no impairment charge for the periods presented.

- Investments in unconsolidated entities

Under the equity method of accounting, investments in unconsolidated entities are initially recognized in the consolidated balance sheet at cost and are subsequently adjusted to reflect the Company’s proportionate share of net earnings or losses of the entity, distributions received, contributions and certain other adjustments, as appropriate. The Company’s share of the income or loss of the unconsolidated entity is reflected in the consolidated statements of operations and will increase or decrease, as applicable, the carrying value of the Company’s investments in unconsolidated entities on the consolidated balance sheet.

When the investment cost in an unconsolidated entity is reduced to zero, the Company records no further losses in its consolidated statements of operations unless the Company has an outstanding guarantee obligation or has committed additional funding to the entity. When such entity subsequently reports income, the Company will not record its share of such income until it exceeds the amount of the Company’s share of losses not previously recognized.

- Revenue recognition

The Company recognizes its revenue in accordance with ASC Topic 605, “*Revenue Recognition*”, upon the delivery of its products when: (1) delivery has occurred or services rendered; (2) persuasive evidence of an arrangement exists; (3) there are no continuing obligations to the customer; and (4) the collection of related accounts receivable is probable.

(a) Rental income

Revenue from rental of leasehold land and buildings are recognized on a straight-line basis over the lease term when collectability is reasonably assured and the tenant has taken possession or controls the physical use of the leased assets.

(b) Service income

Revenue from the provision of (i) business consulting and advisory services and (ii) company secretarial, accounting and financial review services are recognized when there is (i) an existence of contract or an arrangement (ii) services are rendered, (iii) the service price is fixed or determinable, and (iv) collectability is reasonable assured.

(c) Sale of properties

Revenue from the sale of properties is recognized at the time each unit is delivered and title and possession are transferred to the buyer. Specifically, the Company utilizes the full accrual method where recognition occurs when (i) the collectability of the sales price is reasonably assured, (ii) the seller is not obligated to perform significant activities after the sale, (iii) the initial investment from the buyer is sufficient, and (iv) the Company recognizes revenue when it satisfies a performance obligation by transferring control of a promised property to a customer.

Revenue on sales of properties may be deferred in whole or in part until the requirements for revenue recognition have been met.

- Cost of revenues

Cost of revenue on rental shown on the accompanying statements of operations include costs associated with government rent and rates, repairs and maintenance, property insurance, depreciation and other related administrative costs. Property management fee and utility expenses are paid directly by tenants.

Costs of revenue on provision of services primarily consist of employee compensation and related payroll benefits, company formation cost and other professional fees directly attributable to cost in related to the services rendered.

Cost of revenues on sale of properties primary consist of the purchase price of property, legal fees, improvement costs to the building structure, and other acquisition costs. Selling and advertising costs are expensed as incurred.

- Income taxes

Income taxes are determined in accordance with the provisions of ASC Topic 740, “*Income Taxes*” (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted income tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Any effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740 prescribes a comprehensive model for how companies should recognize, measure, present, and disclose in their financial statements uncertain tax positions taken or expected to be taken on a tax return. Under ASC 740, tax positions must initially be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities. Such tax positions must initially and subsequently be measured as the largest amount of tax benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the tax authority assuming full knowledge of the position and relevant facts.

Furthermore, significant judgment is required in evaluating our tax positions. In the ordinary course of business, there are many transactions and calculations for which the ultimate tax settlement is uncertain. As a result, we recognize the effect of this uncertainty on our tax attributes based on our estimates of the eventual outcome. These effects are recognized when, despite our belief that our tax return positions are supportable, we believe that it is more likely than not that those positions may not be fully sustained upon review by tax authorities. The Company conducts major businesses in Hong Kong, Malaysia and China and is subject to tax in its own jurisdiction. As a result of its business activities, the Company will file separate tax returns that are subject to examination by the foreign tax authorities. Such returns are subject to audit by the various foreign taxing authorities, who may disagree with respect to our tax positions. We believe that our consideration is adequate for all open audit years based on our assessment of many factors, including past experience and interpretations of tax law. We review and update our estimates in light of changing facts and circumstances, such as the closing of a tax audit, the lapse of a statute of limitations or a change in estimate. To the extent that the final tax outcome of these matters differs from our expectations, such differences may impact income tax expense in the period in which such determination is made. The eventual impact on our income tax expense depends in part if we still have a valuation allowance recorded against our deferred tax assets in the period that such determination is made.

- Related parties

Parties, which can be a corporation or individual, are considered to be related if the Company has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. Companies are also considered to be related if they are subject to common control or common significant influence.

- Segment reporting

ASC Topic 280, “*Segment Reporting*” establishes standards for reporting information about operating segments on a basis consistent with the Company’s internal organization structure as well as information about geographical areas, business segments and major customers in financial statements. The Company operates in three reportable operating segments, being service business, real estate business and corporate business.

- Business Combination

ASC 805, Business Combinations (“ASC 805”), applies the acquisition method of accounting for business combinations to all acquisitions where the acquirer gains a controlling interest, regardless of whether consideration was exchanged. ASC 805 establishes principles and requirements for how the acquirer: a) recognizes and measures in its financial statements the identifiable assets acquired, the liabilities assumed, and any non-controlling interest in the acquiree; b) recognizes and measures the goodwill acquired in the business combination or a gain from a bargain purchase; and c) determines what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. Accounting for acquisitions requires the Company to recognize, separately from goodwill, the assets acquired and the liabilities assumed at their acquisition-date fair values. Goodwill as of the acquisition date is measured as the excess of consideration transferred and the net of the acquisition-date fair values of the assets acquired and the liabilities assumed. While the Company uses its best estimates and assumptions to accurately value assets acquired and liabilities assumed at the acquisition date, the estimates are inherently uncertain and subject to refinement. As a result, during the measurement period, which may be up to one year from the acquisition date, the Company may record adjustments to the assets acquired and liabilities assumed with the corresponding offset to goodwill. Upon the conclusion of the measurement period or final determination of the values of assets acquired or liabilities assumed, whichever comes first, any subsequent adjustments are recorded to the consolidated statements of operations.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

As a “smaller reporting company” as defined by Item 10 of Regulation S-K, the Company is not required to provide information required by this Item.

**Item 4. Controls and Procedures.****Evaluation of Disclosure Controls and Procedures**

We conducted an evaluation under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. The term “disclosure controls and procedures”, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934, as amended (“Exchange Act”), means controls and other procedures of a company that are designed to ensure that information required to be disclosed by the company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls and procedures also include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded as of June 30, 2017, that our disclosure controls and procedures were not effective. The matters involving internal controls and procedures that our management considered to be material weaknesses under the standards of the Public Company Accounting Oversight Board were: (1) ineffective controls over period end financial disclosure and reporting processes; and (2) lack of internal audit function due to the fact that the Company lacks qualified resources to perform the internal audit functions properly and that the scope and effectiveness of the internal audit function are yet to be developed. The aforementioned material weaknesses were identified by our Chief Financial Officer in connection with the review of our financial statements as of June 30, 2017.

Management believes that the material weaknesses set forth in items (1) and (2) above did not have an effect on our financial results.

**Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting during the quarter ended June 30, 2017, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
